When we finally have an excellent alternative - that is pretty much uncensored - to the junk being shoved down our throats by the FCC, I hear that now they want to stick their noses into my business again. I pay money every month so that I can have the freedom to listen to what I want to listen to - not what you want me to listen to. This is a pay-for-listen medium - Please! Please! leave it alone!

Thank you for your time,
